Google Cloud Training

Pule Molise

has successfully completed the online Professional Certificate

Google Cloud Cybersecurity

Get hands-on training designed by Google Cloud and take the next step in your career into the high-growth field of cloud cybersecurity. As cloud computing has become a cornerstone of the IT industry, cybersecurity threats to the cloud continue to rise. Cloud security analysts are uniquely positioned as the first line of defense in protecting organizational cloud assets from cyber-related crimes. After finishing, you'll be better prepared for jobs like cloud security analyst, cybersecurity specialist, and more. Claim your Google Cloud digital badge on Credly and share with your network! Your Google Cloud Certificate offers a recommendation from ACE® of up to 9 college credits. Please note: The decision to accept credit recommendations is up to each institution and is not guaranteed.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
